

SELECTED INFORMATION ABOUT MISSISSIPPI MUNICIPALITIES

R. Thomas Ball

The following listing contains population, form of government, date of incorporation, and type of charter data on each municipality in Mississippi. *Mississippi Code* § 21-1-1 divides all Mississippi municipalities into three (3) classes. Municipalities with a population of two thousand (2,000) or more are classified as cities. Those with a population of less than two thousand (2,000) but at least three hundred (300) are classed as towns. A village has 100 to 299 inhabitants. The population figures are from the 2000 United States Census.
